

POTSDAM INSTITUTE FOR
CLIMATE IMPACT RESEARCH

Prediction: Developing the Scales

Module 11:

09 Dec. 2024, 8:00-9:15h

Prof. Detlef F. Sprinz, *Ph.D.*

dsprinz@uni-potsdam.de

Potsdam Institute for Climate Impact Research
Albert-Einstein-Science Park
Telegrafenberg
Building A56
14473 Potsdam

Learning Goals

- Questions on Assignment #1
- Develop Position Scale
- Develop Potential Influence Scale

Procedure

- Prediction
 - *To which degree will the 2040 EU GHG net emission reduction goals be allowed to be met by carbon removals?*
- Round 1
 - Breakout Groups (Groups of two)
 - Time: 15 minutes (both scales)
- Round 2
 - Plenary

Position Scale

- To which degree will the 2040 EU GHG net emission reduction goals be allowed to be met by carbon removals?

0	
100	

Potential Influence Scale

- Who is the most influential stakeholder?
- How do you assess the potential influence across various groups of stakeholders?
- How do you assess the potential influence within a specific group of stakeholders?

Questions

- Role of Temporary vs. Permanent Removals
- Clarifications of Assignments 1 & 2 Needed?
